***RANGE GUIDE***

# Crafted for Performance. Designed for Life.

At Door-Stop, we've never believed in compromise. From day one, our sole focus has been composite doors – nothing else. That dedication means every door is crafted using the right blend of materials to deliver exceptional strength, low maintenance, advanced security, weather resistance, and stylish design.

Behind the Door-Stop name is industry-leading technology and thoughtful design, giving you a door that looks great from the outside and performs brilliantly on the inside. With a wide choice of colours, glazing, ironmongery and security options, you can create a door that suits your property perfectly while making a bold, confident statement.

As pioneers in the composite door industry since 2008, we've led the way with innovations such as reglazeable cassettes, colour-matched weather bars and providing Energy Rating certificates before they were required. Our legacy of quality, innovation and customer satisfaction continues today – built on experience, driven by excellence, and focused entirely on creating the best composite doors we can.

# Colour Options

The doors in our collection are available in a diverse range of colours (both sides) to suit the character of your home. One colour can be selected for the external side of the door and a completely different colour for the interior, allowing the door to truly reflect the homeowner's personality and complement both the building's character and internal design.
